Freedom to use any doctor or hospital — now that's refreshing.

Get more protection with a national network and an HSA.

A network is a group of health care providers and facilities that have a contract with UnitedHealthcare. You can receive care and services from anyone in or out of our network. You can save money when you use a health savings account (HSA) and the network. The Choice Plus network includes:

- ✓ **840,000+ doctors and health care professionals**
(clinics, labs, care centers, etc.)
- ✓ **5,700+ hospitals**
- ✓ **30,000+ pharmacies**

There's coverage if you need to go out-of-network.

Out-of-network means that a provider does not have a contract with us. Choose what's best for you. Just remember, out-of-network providers will likely charge you more and can even bill you for amounts higher than what your plan will cover.

There's no need to choose a primary care physician (PCP) or get referrals to see a specialist.

Consider a primary care physician (PCP); they can be helpful in managing your care.

You can open a health savings account (HSA).

An HSA is a personal account to help you save and pay for your health care. There's no "use it or lose it" rule and you get to keep it even if you change plans, change employers or retire.

Qualified HSA expenses:

You can use an HSA for many expenses, including:

- ✓ Doctor office visits
- ✓ Prescriptions
- ✓ Eyeglasses and contacts
- ✓ Dental care and braces
- ✓ Chiropractic services and more

Understand your costs when getting care.

How paying for network care works with an HSA.

STEP 1

Your deductible*

You pay for all services, including prescriptions, until you meet your deductible. You can use an HSA to help pay it.

Pay with your HSA
or pay another way

STEP 2

Your coinsurance*

After you reach the deductible, you share the costs with the plan. You can use an HSA to help pay your share.

Understand your pharmacy benefit.

Your covered medications.

OptumRx® is your UnitedHealthcare plan's pharmacy care services manager. OptumRx is committed to providing you with safe, easy and cost-effective ways to get the medication you need.

The UnitedHealthcare Prescription Drug List (PDL) is the list of medications that are covered by the plan. The PDL is organized by cost levels, known as tiers. Choosing medications in the lower tiers may save you money.

Tier 1

Lower-cost
Medications

Tier 2

Midrange-cost
Medications

Tier 3

Paying for prescriptions.

You will have to pay the full cost of your covered prescriptions until you've paid your deductible. But you can use your HSA to help pay.

Save on your medications.

- ✓ **Use home delivery.** Up to a three-month supply of your medications will ship free to your home, often at a lower cost than retail. You also get 24/7 phone support, medication refill reminders and more. And it saves you trips to the pharmacy.
- ✓ **Use network pharmacies.** Pharmacies in our network have agreed to charge lower prices. Our network includes thousands of pharmacies across the country.
- ✓ **Use lower tier medications, such as generics.** Use the PDL to help you or ask your doctor. If you have a medication that is placed in a higher tier (Tier 3, for example), check to see if a Tier 1 option is available. The higher cost brand medications are usually placed in higher tiers.
